The California Department of Education’s 2007 California Migrant Education Program Comprehensive Needs Assessment (CNA) stressed the importance of having better data on the needs of migrant students related to health and learning readiness and engagement, including better means to identify migrant youth. The data available identified several indicators in which migrant youth appear to be in greater need of services than students statewide. As a result, health and engagement indicators are being included in the new state plan for the Migrant Education Program.

The CNA was able to gather data related to concerns clustered under the general heading “Areas of Intervention.” Two of these four areas relate directly to the data compiled via the CHKS and CSCS:

» Engagement in the school community

» Health

Engagement in the School Community

Research has shown that students who are engaged in high school with such activities as student government, student organizations, and athletics have greater satisfaction with school, are more likely to pursue higher education, and are less likely to drop out. Additionally, positive and supportive relationships with adults in the school community contribute to students’ sense of belonging and self-esteem—both critical elements to dropout prevention.

To better understand the experiences of migrant high school students, the High School Work Group from the CNA, hypothesized that migrant students who are not engaged in school would experience lower satisfaction with school than would the general student population. The workgroup expressed the concern as follows:

Migrant high school students who are not engaged in their high school community do not graduate.

Because direct measures of migrant students’ engagement with the school community do not exist, the High School Work Group and the Management Team explored alternative sources to quantify such experiences. The California Health Kids Survey (CHKS) emerged as a potential source because it is administered anonymously to a large number of high school students throughout the state.

To identify migrant students, the CHKS uses the responses of migrant-like students - self-identified Hispanic or Latino/Latina students who report moving at least once during the past 12 months and who attend a school with a high migrant student population.

The CNA recommended two areas of interest regarding Engagement in the School Community

1. Assist schools in integrating migrant students into the general student population by encouraging participation in clubs, organizations, and athletics, including providing financial support for materials and equipment.

2. Facilitate parent-teacher interaction and teacher professional development that
focus on the needs of migrant students and the importance of their participation in the school community.

Health

The CNA also highlighted the unmet health (mental and physical) of many migrant education students. Migrant students’ unmet health needs become more prominent as students get older because they are ineligible for health services and increased self-reliance is expected of older students. Also present in many adolescents is the need for psychosocial support and counseling, including suicide prevention and intervention. Migrant students have unmet health needs that interfere with their academic success, such as psychosocial and chronic health conditions.

In particular the CNA recommended compiling results aimed at the following:

1. Determining the percentage of migrant students reporting unmet health needs on the CHKS.
2. Determining the percentage of migrant students reporting unmet psychosocial needs on the CHKS.

The Migrant Education Report disaggregates results by migrant education students compared to general population students for LEAs. This way schools, districts, and counties are able to compare and ascertain if a discrepancy exists in their locality for migrant education students.
#1 SELECT SUBJECT
- Select an area of interest—Closing The Achievement Gap overall, Special Education or Migrant Education.

#2 SELECT AREA
- Choose a relevant Area of Focus.

#3 LOCATE DATA
- Have your CHKS/CSCS Reports handy.*
- Enter the results from the CHKS/CSCS into the relevant blank Tables in this Workbook.
- If you do not have the results handy answer the Self-Assessment question as a starting point.

#4 DISCUSS RESULTS
- What do your results show?
- Is there something that needs to be looked at further?
- Start a discussion and ask more questions.

#5 CHOOSE SETTINGS
- Select your setting: Classroom, School, or District.

#6 TAKE NEXT STEPS
- Read through the Next Steps strategies.
- Which of the strategies are most relevant/pertinent?
- Which appear to be the most straight forward to address?
- Which appear the most critical to address?

#7 FIND SUPPORT
- Classroom strategies can be implemented easily by individuals or a small team.
- School-wide or district-wide initiatives will need to consider gathering support; such as:
  - Develop a Task-force;
  - Present results;
  - Organize Focus Groups; or
  - Invite input from stakeholders.

#8 IMPLEMENT
- Gather support, start with easy to implement steps.

*District Reports  CHKS reports can be accessed at: www.wested.org/cs/chks/print/docs/chks_bsearch.html. CSCS reports can be accessed on the previous website or at: http://cscs.wested.org/reports/search. Alternatively these reports can be accessed through CDE Data Quest: http://dq.cde.ca.gov/dataquest

School Level Reports  Ask your school principal if a copy is available at school. If not, your district CHKS coordinator can order a copy from WestEd for a nominal fee.
AREAS OF FOCUS

1. ENGAGEMENT
2. HEALTH

SELECT AREA
- Choose a relevant Area of Focus.
**ENGAGEMENT**

**The objective:**

» **at the classroom level** is to address ways to increase levels of engagement of all students in lessons and activities being conducted.

» **at the school level** is to address school related practices and policies to enhance student engagement in the school setting and to enhance staff expertise in contributing to this engagement.

» **at the district level** is to address district policies and structures to increase student engagements in their school and community settings.

**LOCATE DATA**

- Have your CHKS/CSCS Reports handy.*
- Enter the results from the CHKS/CSCS into the relevant blank Table in this Workbook.
- If you do not have the results handy answer the Self-Assessment question as a starting point.

*S*District Reports  CHKS reports can be accessed at: www.wested.org/cs/chks/print/docs/chks_bsearch.html. CSCS reports can be accessed on the previous website or at: http://cscs.wested.org/reports/search. Alternatively these reports can be accessed through CDE Data Quest: http://dq.cde.ca.gov/dataquest

School Level Reports  Ask your school Principal for the school level report or contact your CHKS District Coordinator and request a copy of the school district report for a nominal fee.

**Self-Assessment Questions**

**Protective Factors**

» Do migrant education students report lower levels of engagement/connectedness in school and/or community than other students?

» Are migrant education students encouraged to participate in the full range of school-community activities?

**Professional Development**

» Do staff feel they have adequate Professional Development that focuses on the needs of migrant education students and/or staff?
**Table A3.1**

Question 51: Do you feel that you need more professional development, training, mentorship or other support to do your job in any of the following areas….meeting the social, emotional, and developmental needs of youth (e.g., resilience promotion?.
Key: M=Migrant, TD=Total District, ES=Elementary, MS=Middle, HS=High

For additional CHKS and CSCS questions for this focus area, refer to Appendix 1.

DISCUSS RESULTS

- What do your results show?
- Is there something that needs to be looked at further?
- Start a discussion and ask more questions.
OK now what to do?
Here are some Next Steps you can take to either:

» **FOCUS ON** and **IMPROVE** the current situation (if you found varying levels of engagement between migrant education and general education students), or

» **MAINTAIN** and **STRENGTHEN** the situation (if you found that all students report high levels of engagement and participation in the school).

We’ve divided these steps into sections for:

» **CLASSROOM**
» **SCHOOL**
» **DISTRICT**

We’ve also placed 2 columns of checkboxes next to each one so you can identify which you are already doing (and want to continue...
The objective at the classroom level is to address ways to increase levels of engagement of all students to lessons and activities being conducted.

<table>
<thead>
<tr>
<th>Check applicable:</th>
<th>STRATEGIES FOR CLASSROOMS</th>

</thead>
<tbody>
<tr>
<td><strong>Done</strong></td>
<td><strong>To Do</strong></td>
</tr>
</tbody>
</table>

- Actively construct activities which focus on the skills/knowledge of migrant student population (e.g., culture, language, etc.) and places the migrant education student as the focus of the lesson/activity (MP)
- Create lessons/activities that illuminate the skills accessed by mobile migrant education students, e.g., awareness of varying cultures, languages, community support (MP)
- Make one-to-one time with students (CR)
- Make personal contact with students every day—something as simple as a hello or a smile (CR)
- Pay attention and actively listen to students (CR)
- Make visits to college campuses available to all students, not just a select few (HE)
- Have teachers and other school adults model the language of success to all students—“When you graduate…,” and “When you go to college…” (HE)
- Give students encouraging messages like, “You can make it; You have everything it takes to achieve your dreams, and I’ll be there to support you.” (HE)
- Make personal contact with students every day—something as simple as a hello or a smile (CR)
- Learn the names of students and their life contexts (CR)
- Give students encouraging messages like, “You can make it; You have everything it takes to achieve your dreams, and I’ll be there to support you.” (HE)
- Have teachers and other school adults model the language of success to all students—“When you graduate…,” and “When you go to college…” (HE)
- Make visits to college campuses available to all students, not just a select few (HE)
- Give students more opportunities to respond to questions (MP)
- Ask students their opinions on issues and classroom problems (MP)
- Ask questions that encourage self-reflection, critical thinking, and dialogue—especially around salient social and personal issues (MP)
- Make learning more hands-on (MP)

For more suggestions on creating a positive climate look back at the CTAG Next Steps and/or go to Appendix 4: Protective Factor Strategies.
The objective at the school level is to address school related practices and policies to enhance student engagement to the school setting and to enhance staff expertise in contributing to this engagement.

**Protective Factors:**
- **CR** = Caring Relationships
- **HE** = High Expectations
- **MP** = Meaningful Participation

### Engage: Strategies for Schools

- **Check applicable:**
  - **Done**
  - **To Do**

1. Set up support networks in the classroom/school to help new students acclimatize and increase awareness of all services/programs available to them (CR, MP)
2. Use migrant education and new-to-school students to the schools as focus groups for gauging current ability of school to increase all students’ awareness of and access to all services/programs (CR, MP)
3. Be available to students by having an open-door policy where students feel comfortable dropping in if they need help or just want to talk (CR)
4. Institute mentoring by teachers, other adults in school, older high school and college students, and community volunteers (CR)
5. Create focus groups of students, teachers, and other adult staff to discuss these findings and explore their ideas for making the school climate and policies more supportive of their work. Act on teacher recommendations (CR)
6. Challenge the myths held about certain groups of children and youth—especially those who are poor, non-white, and non-English-speaking (HE)
7. Establish peer helping/tutoring and cross-age mentoring/tutoring programs (MP)

For more suggestions on creating a positive climate look back at the CTAG Next Steps and/or go to Appendix 4: Protective Factor Strategies.

Done  To Do

STRATEGIES FOR DISTRICTS

Invite community agencies to create either onsite or offsite afterschool programs (CR)

Invite community volunteers to read to students in classrooms and over the PA system (CR)

Welcome community volunteers into the school who can work one-on-one and in small groups with youth, thus increasing substantially the number of adults in close relationship with youth (CR)

Create mentoring programs that connect community adults to students in your school—increasing substantially the number of adults in the community who learn about young peoples’ lives and their challenges as well as youths’ incredible strengths and capacities (CR)

Create “dialogue nights” where adults and youth can talk together in an atmosphere of mutual trust and safety (CR, HE, MP)

Hold a student focus group with community agencies to explore Resilience and Youth Development Module (RYDM) community data (CR, HE, MP)

For more suggestions on creating a positive climate look back at the CTAG Next Steps and/or go to Appendix 4: Protective Factor Strategies.
